CALGARY, Alberta – Canadian Utilities Limited announced today that as a result of strong investor demand for its previously announced offering of Cumulative Redeemable Second Preferred Shares Series FF, the size of the offering has been increased to 10,000,000 shares. The aggregate gross proceeds will now be \$250,000,000. The proceeds will be used for capital expenditures, to repay indebtedness and for other general corporate purposes.

The Series FF Preferred Shares will be issued to the public at a price of \$25.00 per share and holders will be entitled to receive fixed cumulative preferential cash dividends, payable quarterly for an initial period of five years, as and when declared by the Board of Directors of the Company at an annual rate of \$1.125 per share, to yield 4.50% annually. On December 1, 2020, and on December 1 of every fifth year thereafter, the Company may redeem the Series FF Preferred Shares in whole or in part at par.

Holder may elect to convert any or all of their Series FF Preferred Shares into an equal number of Cumulative Redeemable Second Preferred Shares Series GG on December 1, 2020, and on December 1 of every fifth year thereafter. On December 1, 2025, and on December 1, of every fifth year thereafter, the Company may redeem the Series GG Preferred Shares in whole or in part at par. On any other date, the Company may redeem the Series GG Preferred Shares in whole or in part by the payment of \$25.50 for each share to be redeemed.
