April 30, 2010

CANADIAN UTILITIES REPORTS FIRST QUARTER EARNINGS OF \$148.0 MILLION

CALGARY, Alberta – **Canadian Utilities Limited (TSX: CU, CU.X)**

Canadian Utilities today reported earnings of \$148.0 million (\$1.18 per share) for the first three months of 2010, compared to \$145.4 million (\$1.16 per share) for the same three months in 2009.

Canadian Utilities also reported “Adjusted Earnings” ⁽¹⁾ for the first three months of 2010 of \$152.0 million (\$1.21 per share), compared to \$148.3 million (\$1.18 per share) for the same three months in 2009.

Earnings and Adjusted Earnings in the first quarter of 2010 reflected continued strength from the Company's Utilities Segment due to higher investment in rate base, partially offset by lower earnings in the Company's Energy Segment primarily due to lower spark spreads in the Alberta and United Kingdom electricity markets.

RECENT DEVELOPMENTS

- On April 9, ATCO Power announced that its new 86 megawatt Karratha (in Western Australia) generating station went into full commercial operation ahead of schedule, only 16 months after the environmentally progressive project was first announced.
- On March 26, ATCO Gas celebrated the official opening of a new environmentally friendly operations centre. Located in Edmonton, the operations centre is the largest commercial building in Canada to make use of geothermal heating, ventilating and cooling technology fuelled by natural gas.
- On March 15, ATCO Midstream and SaskEnergy Inc. announced the completion of a joint expansion project at the Kisbey Gas Plant in southeastern Saskatchewan that will benefit both the environment and Saskatchewan's economy and will triple the capacity of the Kisbey Gas Plant to five million cubic feet of gas per day.
- ATCO Gas received a decision on April 20 from the Alberta Utilities Commission (AUC) approving, on an interim refundable basis, the partial recovery of amounts previously paid to customers in regard to the Carbon storage facility. This decision increased ATCO Gas' earnings in the first quarter of 2010 by \$11.3 million. This increase was partially offset by an Alberta Court of Appeal decision received on April 23 in regard to amounts previously recovered from customers for historical transportation imbalances that returned the matter to the AUC for consideration. Pending final resolution of this matter, the timing of which is uncertain, ATCO Gas recorded a contingent liability in the first quarter of 2010 which reduced its earnings by \$8.4 million.

**Financial Summary and Reconciliation
of Adjusted Earnings****For the Three Months
Ended March 31**

	2010	2009
(\$ Millions except per share data)		Unaudited
Reported Earnings	148.0	145.4
ATCO Power Mark-to-Market Adjustment	4.0	2.9
Adjusted Earnings ⁽¹⁾	152.0	148.3
Earnings Per Share	1.18	1.16
Adjusted Earnings Per Share ⁽¹⁾	1.21	1.18
Revenues	748.6	768.6
Funds Generated By Operations ⁽¹⁾⁽²⁾	213.2	246.6

(1) These measures are not defined by Generally Accepted Accounting Principles and may not be comparable to similar measures used by other companies.

(2) This measure is cash flow from operations before changes in non-cash working capital.

Revenues for the three months ended March 31, 2009 included ATCO Frontec, which as a result of the ATCO Structures & Logistics (ASL) Transaction in the third quarter of 2009 is no longer consolidated. Since then, Canadian Utilities' investment in ASL is accounted for on an equity basis.

The decrease in **Funds Generated by Operations** for the three months ended March 31, 2010 is primarily due to regulatory deferral amounts which vary from quarter to quarter and are, therefore, not comparable or indicative of funds generated by operations on an annual basis.

Canadian Utilities' consolidated financial statements and management's discussion and analysis of financial condition and results of operations for the three months ended March 31, 2010, will be available on Canadian Utilities' website (www.canadian-utilities.com) or via SEDAR (www.sedar.com) or can be requested from the Company.

Alberta-based Canadian Utilities Limited, an ATCO company, with more than 5,700 employees and assets of approximately \$9.1 billion, delivers service excellence and innovative business solutions worldwide with leading companies engaged in Utilities (pipelines, natural gas and electricity transmission and distribution), Energy (power generation, natural gas gathering, processing, storage and liquids extraction) and Technologies (business systems solutions).
